JI Pekojan No.40, Semarang Tengah, Kota Semarang Tengah, Kota Semarang

I am a graduate of Information Engineering from Dian Nuswantoro University, Semarang, Indonesia. I have a strong interest in data and am actively developing my skills in data analysis and machine learning. I also have experience in system analysis, including requirement analysis, system documentation, and designing system workflows to support effective and efficient solutions.

## Work Experiences

---

### Universitas Dian Nuswantoro - Semarang, Indonesia

Sep 2024 - Present

Computer Laboratory

- As a Laboran Magang at the Computer Laboratory of Universitas Dian Nuswantoro, I have been responsible for managing and maintaining the lab's computer systems and ensuring their smooth operation. My role involves providing technical support, troubleshooting hardware and software issues, and assisting students and faculty with their technical needs. I also contribute to improving lab procedures and maintaining documentation to enhance efficiency and support academic activities.

### CV. Atlas Digital Cipta Teknologi - Semarang, Indonesia

Aug 2025 - Dec 2025

System Analyst

- As a System Analyst Intern at Atlas Digital Cipta Teknologi, I am responsible for analyzing business requirements, creating system documentation, and supporting the development team in designing effective system solutions. My role involves requirement analysis, project documentation, and assisting in the design of system workflows to ensure that the solutions meet both technical and business needs.

### Puka Cell - Kudus, Indonesia

Apr 2025 - June 2025

Freelance Web Developer - Remote

- As a Web Developer, I developed a company profile website for clients using HTML, CSS, JavaScript, and React.js. The website was designed with a responsive and modern look, including pages such as Home, About Us, Services, Gallery, and Contact. I also implemented interactive features such as contact forms and light animations to enhance the user experience. The development process follows the initial design from Figma, and the project is managed through GitHub and deployed using Vercel.

### Angkut.in - Semarang, Indonesia

Apr 2024 - Oct 2024

Chief Marketing Officer

- As the Chief Marketing Officer (CMO) at Angkut.in, I was responsible for planning and implementing effective marketing strategies to boost brand awareness and acquire new customers. I also designed Instagram posts to enhance digital presence, managed marketing campaigns, and collaborated with teams to create exceptional customer experiences, driving business growth.

### Puka Cell - Kudus, Indonesia

Aug 2021 - Sep 2022

Chief Marketing Officer

- As a Store Head at Pusat Puka Cell Kudus, I was responsible for overseeing daily store operations to ensure smooth and efficient activities. My role included managing inventory such as prepaid credit, data packages, and accessories, including ordering and stock control. I handled customer service and resolved complaints professionally to maintain

customer satisfaction. Additionally, I monitored sales performance, targets, and prepared daily and monthly financial reports. I also ensured store cleanliness, organization, and security, while maintaining service standards and continuously improving overall service quality.

## Education

---

**Universitas Dian Nuswantoro - Semarang, Indonesia**

**Sep 2022 - May 2026 (Expected)**

*Undergraduate in Informatics Engineering, 3.69/4.00*
